

Just Intonation Tuning

Notes in blue are normal highland bagpipe/smallpipe notes. Notes in red are accidentals. This assumes drones are tuned to the "A". If you want to tune drones to a different note, just cycle the note names around like they're on a dial. For example, if you wanted to tune your drones to the note "B", you would need to move B down to the 0.00 spot which would put the note A in the "G" spot (haha).

Note Name	Chromatic tuner offset (cents)
G#/Ab	-12.03
G	-31.80 or -4.02
F#	-16.02
F	+13.34
E	+1.90
D#/Eb	-10.03
D	-2.01
C#	-14.02
C	+15.26
B	+3.80
A#/Bb	+11.43
A	0.00
